## "Minimal Intervention" or "Natural"

*It is important first to distinguish what we consider a "natural" wine. For the sake of this wine list, our natural wines are wines that are grown or produced by winemakers implementing organic & biodynamic practices, mostly unfinned & unfiltered, and the least amount of sulfur added at the end of bottling, or no sulfur added at all.*

*These wines are complex and interesting much like our food and greatly complement our menu. These wines are alive, have character and evolve very quickly over time in the glass. They are meant to be enjoyed with food, with us here at Alter.*
